## PRÉSENTATION MOQUETTE DE PIERRE

---

La moquette de pierre est un revêtement de sol extérieur composé de granulats de marbre naturels liés par une résine. Idéal pour les terrasses, les plages de piscine, les allées ou les escaliers, il offre un rendu élégant, antidérapant et perméable à l'eau.

*Important : pas de solvant, pas d'odeur.*

## APRESENTAÇÃO DO TAPETE DE PEDRA

---

O tapete de pedra é um pavimento exterior feito de agregados de mármore natural aglomerados com resina. Ideal para pátios, decks de piscina, passadiços ou escadas, oferece um acabamento elegante, antiderrapante e impermeável.

*Importante: sem solventes, sem odor.*

## STONE CARPET PRESENTATION

---

Stone carpet is an outdoor flooring made from natural marble aggregates bound with resin. Ideal for patios, pool decks, walkways, or stairs, it offers an elegant, non-slip, and waterproof finish.

*Important: no solvent, no odor.*
